

## CAIR event, Saturday afternoon, October 22, 2005

[Visit the Colorado Alliance for Immigration Reform website](#)

Mark your calendars today!

Colorado Alliance News, in cooperation with the Defend Colorado Now Initiative and the Colorado Alliance for Immigration Reform, will be putting on a forum on October 22, 2005, 2 pm to 4:30 pm, at the University of Denver's Boettcher Hall, entitled:

### **The Colorado Illegal-Immigration Crisis: Colorado Solutions**

Already confirmed to participate are former Colorado Gov. Richard D. Lamm; Chairman of the Congressional Immigration Reform Caucus, Rep. Tom Tancredo; former INS Senior Specialist, Jim Spence; Dr. William Herron from the Defend Colorado Now Initiative; state legislators and many others.

Estimates of the number of illegal aliens currently residing in the U.S. range from 10 to 20 million. Time magazine estimates that three-million illegal immigrants from all over the world now enter the U.S. annually (with an conservatively estimated 250,000 currently residing in Colorado), far outnumbering the 1.2 million legal immigrants entering the country annually. The U.S. admits more legal immigrants than all of the countries of the world admit, combined. Massive illegal immigration is an insult to America's generous immigration policy.

Polls show that 70-80 percent of the Americans, across racial, ethnic and class lines, want illegal immigration halted. But the U.S. government continues to fail in its First Obligation: the protection of its citizens. Instead, the President and members of the Congress are again foolishly offering as the solution to illegal immigration the tried-and-failed amnesty approach. Since the "one-time-only" massively fraudulent 1986 amnesty, we have had six additional amnesties, proving that amnesties only encourage more illegal immigration.

The proponents of the several amnesties now before the Congress falsely claim that there are only two alternatives to illegal immigration: mass deportation-an impossible concept-and yet another amnesty (number eight), referred to under several euphemistic terms such as "guest worker programs," "regularization," "earned legalization," etc. There is a third alternative, however: attrition.

Just as a stool needs four legs to support it, attrition provides a four-legged solution to illegal immigration. Those legs are: 1) increased border enforcement, 2) increased interior enforcement, 3) sanctions against felonious employers of illegal immigrants, and 4) through the ballot-initiative process, ending government-sponsored benefits and entitlements for illegal immigrants. As Gov. Lamm has noted, attrition will create self-deportation and help bring illegal immigration to manageable levels. Because of the ongoing abdication on the part of the President, the Congress, the Gov. of Colorado and

the state legislature, the responsibility for dealing with illegal immigration has now, by default, shifted to We the People. So please make a commitment now to attend the forum on October 22, where you will find out what you can do to help end illegal immigration in Colorado.

- University of Denver's Boettcher Hall, Saturday, October 22, 2005, from 2:00 pm to 4:30 pm.
- Take I25 to University. Turn right (south). Go 4 blocks to Iliff. Turn right (west) on Iliff. Go 4 blocks on Iliff. Boettcher Hall is on the south in a courtyard-style arrangement of buildings.
- Admission is free. However, contributions to CAIR will help offset our production costs!
- Park in campus Lot O (one block to the east) and use Lot P (at University and Wesley) for overflow. Parking will cost \$6, but street parking is limited.
